

Procedura de transmitere a dosarelor Asirom catre reparatorii parteneri

Reparatorul partener Asirom acceseaza optiunea Tranmsitere dosar Claim Expert Asirom (Fig.1)

Fig.1

Dupa introducerea numarului de dosar si a seriei de sasiu se actioneaza butonul Transmitere Dosar (Fig.2)

Fig.2

Nota!

Prin apasarea butonului Transmitere dosar, sistemul efectueaza in mod automat o calculatie bazata pe selectiile efectuate de ClaimExpert (piese, reparatii etc) utilizand datele contractuale din parteneriatul reparator-Asirom (tarif manopera sau eventuale discounturi negociate).

Dupa transmiterea dosarului unitatea reparatoare vede toate paginile din dosar, inclusiv pagina de informatii privind datele personale (Fig. 3).

The screenshot shows the Asiom test application interface. At the top, there's a navigation bar with links like 'Rules', 'Flow', 'XML', 'Expressions', 'Reports', and 'CRC'. On the right side, there are buttons for 'Schimbare parolă' (Change password), 'Deconectare' (Logout), 'Ajutor' (Help), and 'Politica de confidențialitate' (Privacy Policy). The main content area is titled 'Dosar Asiom' and contains sections for 'Date dosar' and 'Jurnal - Prezentare modificari'. The 'Date dosar' section includes fields for 'Număr Dosar Daună' (Asiom_test), 'Create de' (coordonare4), 'Stare dosar' (Deschis), 'Data ultima modificare' (14.08.2019 09:47), and 'Creat la' (14.08.2019 09:16). The 'Jurnal - Prezentare modificari' section is a table with columns: Notă, Stare eveniment, Stare, Utilizator, and Data și oră. It lists several entries related to the creation and modification of the claim.

Important

Calculatia in formatul pdf (Fig.4) se va descarca si salva local si se va incarca in aplicatia Ekspertyza.

The screenshot shows a PDF document titled 'CALCUL REPARATIE NR. Asiom_tes' dated '14.08.2019'. The document is a 'CALCUL REPARATIE' (Repair Calculation) for claim number 'Asiom_tes'. It contains sections for 'PAGINA CUPRINS' (Table of Contents), 'NUMAR DOSAR DE DAUNA' (Claim Number), 'VEHICUL' (Vehicle), 'REPARATOR' (Repairer), and 'DATE INTRODUSE' (Input Dates). The vehicle information includes 'PRODUCATOR/MODEL/SUBMODEL : 02 AC 02', 'MARCA : FORD', 'MODEL/SUBMODEL : FOCUS (DA3/CB4) / TREND', 'NUMAR DE INMATRICULARE :', 'SERIE DE SASIU :', and 'PRIMA INMATRICULU : 16.08.2012'. The repair dates listed are 'DATA INTRODUSE : 13.08.2019' and 'DATA ACCIDENT : 13.08.2019'. The repairer information includes 'MARGEANULUI : BAIA MARE' and '':'. The document is presented in a dark-themed browser window.

Utilizand butonul Trimitere (Fig 8), reparatorul partener Asirom va transmite dosarul catre Claimexpert (Exemplu comentariu: Calculatie refacuta conform reconstatare).

Transmitere dosar

The screenshot shows a software window titled "Rezultat calculatie". It has several tabs on the left: Dosar Asirom (selected), Correspondență, Date accident, Descriere, and Trimite activitate. The main area contains sections for Destinatar (Claim Expert Eval), Calculatii (with radio buttons for selectate (1), toate (3), niciuna, și totul), Atasamente (with radio buttons for selectate (0), toate (0), niciunul), and Comentariu (with the text "Calculatie refacuta conform reconstatare"). At the bottom right, there are "Trimite" and "Revocare" buttons, with the "Trimite" button highlighted by a red arrow.
